offices/partners  
across Europe

**30+**  
country  
solutions

**1000+**  
clients  
(85% *multinationals*)

**500**

Technology **Fast 500**  
2016 EMEA

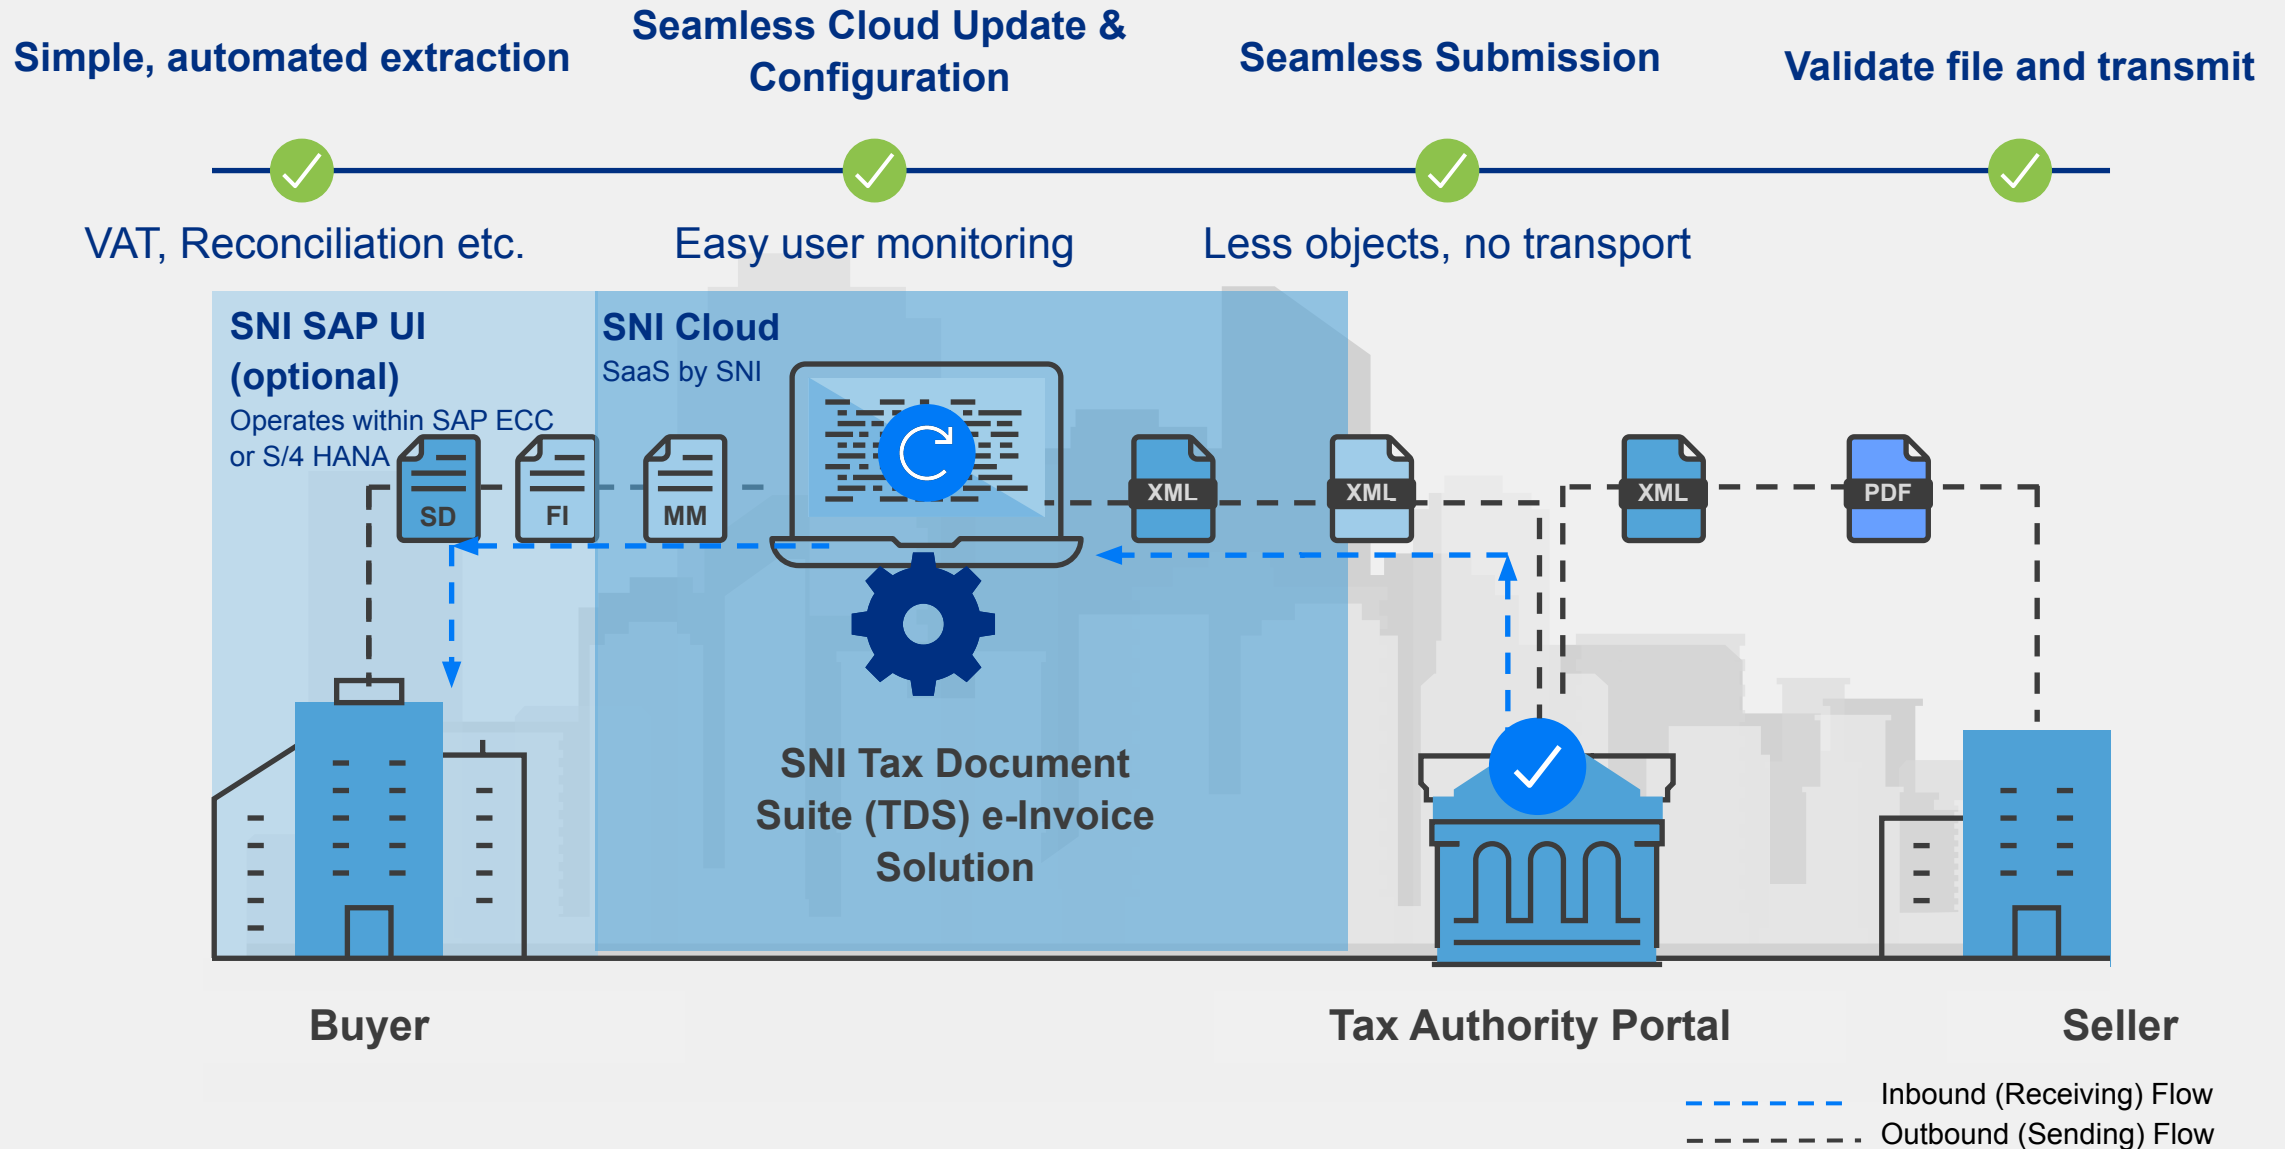

## Our Clients

# Real Time e-Invoicing

For SAP Users

# Important Features

- **Automatically validates** e-invoice XML files against country-specific schemas and business rules before submission.
- **Provides real-time monitoring** of the complete invoice lifecycle, including submission, validation, acceptance, rejection, and processing statuses.
- **Applies compliant digital signatures** to ensure document authenticity, integrity, and non-repudiation where required by local regulations.
- **Automatically submits invoices** to tax authorities or Peppol networks and processes government responses and inbound invoices where supported.
- **Securely archives** both XML and human-readable invoice documents, ensuring legal retention, fast retrieval, and full audit traceability.

# Benefits of Solution

- **Ensures compliance** with country-specific e-invoicing regulations.
- **Reduces invoice rejections** through automated validation.
- **Eliminates manual processing** with end-to-end automation.
- **Provides complete visibility** into invoice processing and statuses.
- **Accelerates invoice submission** to tax authorities.
- **Improves operational efficiency** through centralized monitoring.
- **Supports secure and compliant** digital signatures.
- **Simplifies audits** with secure document archiving and full traceability.
- **Reduces compliance risks** by validating data before submission.
- **Integrates seamlessly** with SAP and other ERP systems.
- **Supports multi-country compliance** from a single platform.
- **Lowers operational costs** by automating regulatory processes.
