Turkey e-Invoice

Turkish e-Invoice

Key characteristics, standards, and regulatory requirements of the Turkish e-Invoicing model

Already Mandated

Fully established e-invoicing framework with mandatory rollouts in place across Turkey.

Submitted to TRA

Direct transmission and validation via the Turkish Revenue Authority (GİB) network.

XML Standard

Invoices are created and exchanged in standardized UBL-TR XML format.

e-Invoice System

Structured electronic invoice exchange between registered taxpayer entities.

Data Integrity & Compliance

Data integrity of e-Invoices is ensured by Fiscal Stamp* (e-Signature)

*Legal validity and authenticity guaranteed via qualified financial seal or electronic signature certificate.

Who Is SNI Turkey e-Invoice Solution For?

Designed to meet diverse enterprise, operational, and regulatory requirements across Turkey and Europe.

Mandatory Tax Compliance

Businesses subject to mandatory e-Invoice (e-Fatura) requirements under Turkish tax legislation.

e-Invoice & e-Archive

Companies issuing and receiving e-Invoices and e-Archive invoices as part of their daily business operations.

SAP ERP Enterprise

Businesses using SAP ERP systems, including native integration for SAP ECC and SAP S/4HANA.

Non-SAP ERP Systems

Companies using non-SAP ERP systems that need a seamless, ERP-independent e-invoicing solution.

High-Volume Automation

Organizations managing high volumes of invoices requiring automated processing and system integration.

International Entities

International companies operating in Türkiye needing to align local invoicing with Turkish e-document rules.

Important Points

Key points businesses should know include:

Mandatory & Voluntary Adoption

Businesses meeting regulatory criteria must register for e-Invoice. Other businesses may voluntarily join the system.

Revenue-Based Thresholds

TRY 3M+ gross sales fall under mandatory scope. TRY 500K threshold applies to online sales, real estate, and vehicle sales.

Activity-Based Obligations

Mandatory for specific sectors regardless of revenue: petroleum, tobacco, alcohol, e-commerce, accommodation, and healthcare.

e-Invoice vs. e-Archive

e-Invoices are issued between registered users. e-Archive Invoices are issued to non-registered customers and individuals.

GİB Integration

Transmitted via GİB specifications through the GİB Portal, direct integration, or a GİB-authorised private integrator.

UBL-TR Format

Turkish e-Invoices use the country-specific UBL-TR format, defining required XML structures and invoice data elements.

Digital Signature & Seal

Electronic signature or financial seal requirements must be fulfilled depending on taxpayer type and integration method.

Storage & Accessibility

e-Invoices must be preserved and made accessible in accordance with Turkish tax legislation and e-document rules.

Regulatory Updates

Businesses must monitor ongoing updates to GİB regulations, technical specifications, and adoption thresholds.

Benefits of SNI Turkey e-Invoice Solution

Key advantages for enterprise invoicing, automation, and regulatory compliance:

Seamless SAP Integration

Integrate e-Invoice & e-Archive with SAP ECC and S/4HANA, reducing ERP customization needs.

ERP-Independent Architecture

Manage electronic invoicing through SNI e-Doc Suite, designed to support any ERP system.

Automated Invoice Processing

Automate retrieval, transformation, validation, and submission to cut manual workload.

Regulatory Compliance

Generate electronic documents strictly in line with GİB requirements and local rules.

Centralised Management

Centralise electronic invoicing operations for total visibility and operational control.

Inbound & Outbound Support

Manage both incoming and outgoing electronic invoices for end-to-end workflow support.

XML & Human-Readable Access

Access structured XML invoice data along with visual representations for easy review.

Scalable Solution

Support growing business needs and expanding volume through modular options.

Reduced Operational Complexity

Connect existing business systems directly to streamline daily tasks and operations.

Why SNI Turkey e-Invoice Solution?

SNI Turkey E-Invoice Solution provides:

Proven Expertise in Turkish e-Invoicing

Benefit from SNI’s experience in electronic document and tax compliance solutions, supporting businesses in meeting Türkiye’s GİB requirements.

Seamless SAP and ERP Integration

Connect e-Invoice and e-Archive processes with SAP ECC and SAP S/4HANA or use SNI e-Doc Suite as an ERP-independent cloud solution.

End-to-End Invoice Management

Manage inbound and outbound e-invoicing processes, including data retrieval, XML transformation, validation and submission through an integrated solution.

Flexible and Scalable Architecture

Adapt electronic invoicing processes to your business requirements and existing IT landscape while supporting evolving regulatory needs.

Türkiye e-Invoicing

Frequently Asked Questions Part 1

1. What Makes SNI Turkey e-Invoice Solution Different?

SNI combines expertise in electronic invoicing and tax compliance with flexible integration for SAP and non-SAP ERP systems via the SNI e-Doc Suite.

2. What Is e-Invoice (e-Fatura) in Türkiye?

e-Fatura is regulated by GİB for electronic invoice exchange in UBL-TR format between registered taxpayers via GİB infrastructure or integrators.

3. How Can a Business Register for e-Invoice?

Businesses register via GİB Portal, direct integration, or GİB-authorised private integrators using a financial seal or electronic signature.

4. What Are the Benefits of Using e-Invoice?

Reduces paper costs, accelerates exchange, lowers manual data entry errors, and improves ERP integration and digital archive management.

5. What is the Difference between e-Fatura and e-Arşiv Invoices?

e-Fatura is used between registered e-Fatura taxpayers. e-Arşiv Invoice is issued when the recipient is not registered or is an end consumer.

6. Can Businesses Issue Paper & Electronic Invoices?

Mandatory transactions must be issued electronically per GİB rules. Paper invoices are only allowed for non-mandatory transactions under tax law.

7. How to Check Taxpayer Registration Status?

Businesses verify recipient status through GİB's official lookup services to determine whether to issue an e-Fatura or an e-Arşiv Invoice.

8. What are the Main Requirements for Issuing an e-Invoice?

Requires e-Invoice registration, financial seal/e-signature, UBL-TR XML compliance, tax law details, and submission via GİB-approved channels.

Türkiye e-Invoicing

Frequently Asked Questions Part 2

9. Which Businesses Are Required to Use e-Invoice in Türkiye?

Under Tax Procedure Law General Communiqué No. 509 and its amendments, certain businesses must register based on annual gross sales revenue, business activities, and sector regulations within GİB deadlines.

10. What Is the Mandatory Revenue Threshold for e-Invoice Adoption?

For 2022+, businesses with annual gross sales revenue of **TRY 3 million or more** are required to adopt e-Invoice. A lower threshold of **TRY 500,000** applies to e-commerce, real estate, and motor vehicle sectors.

11.Which Businesses Are Required to Adopt e-Invoice Regardless of Their Revenue?

Specified sectors and activities—including petroleum, tobacco, alcoholic beverages, online sales, accommodation services, and certain healthcare activities—are required to adopt regardless of revenue.

12. Can a Business Voluntarily Register?

Yes. Businesses that do not meet mandatory criteria can voluntarily register for e-Invoice to digitise invoice exchange, improve operational efficiency, and seamlessly integrate with ERP and accounting systems.

13. Is e-Archive Mandatory for Non-Registered?

From **1 January 2026**, non-registered taxpayers must issue e-Archive Invoices regardless of amount. A temporary 2026 exception applies to simple procedure taxpayers with a TRY 3,000 threshold.

14. Can e-Invoices Be Issued in Foreign Currencies?

Yes, where permitted under tax legislation. Invoices must include required currency and exchange-rate information and comply with UBL-TR technical specifications.

15. How Long Must e-Invoices Be Stored?

e-Invoices and e-Archive Invoices must generally be retained for five years under Tax Procedure Law (VUK), starting from the beginning of the calendar year following the year to which the documents relate. However, the Turkish Commercial Code (TCC) requires merchants to retain commercial books and supporting documents for 10 years. Therefore, businesses subject to both laws should generally retain their invoices for at least 10 years.

16. Can SNI Solution Be Integrated with SAP?

Yes. SNI provides SAP-integrated e-Invoice solutions for SAP ECC and SAP S/4HANA, supporting data retrieval, UBL-TR format transformation, validation, and GİB communication.

17. Does the Solution Support Non-SAP ERP Systems?

Yes. Businesses using non-SAP ERP systems can use SNI e-Doc Suite, an ERP-independent cloud platform for managing electronic document and tax compliance processes.

How can SNI help you?
